

James Courson

Frontend Developer | 7 Years Experience | Agentic Workflows

james@courson.dev

linkedin.com/in/jamescourson

Seasoned developer with 7 years of experience building and owning data administration interfaces. Focused on frontend architecture, agentic development workflows, and reliable feature delivery.

Experience

Developer at *InfoBate*

September 2020 - present

- **Owned front-end development** for an internal React-Admin/PostgREST client management/report generation interface.
 - ◆ **Worked directly with clients to design, build, and implement complex components, forms, and interfaces** with React, React-Admin, and Material UI.
 - ◆ **Managed a Playwright E2E test suite and AWS CodePipeline/GitHub Actions workflows**, overseeing secure and stable deployments into development, QA, and production environments.
- **Supported and maintained backend IaC systems** with Python, AWS CDK, and PostgreSQL.
 - ◆ **Architected and deployed large-scale database upgrades, feature implementations, and production data backfills** on client fact data, **with row counts varying from a few dozen to ~300k**.
 - ◆ Identified and decommissioned an unused RDS database instance, **lowering yearly cloud costs by ~\$15,600**.
- **Orchestrated agentic development** to efficiently and safely perform design, development, and implementation tasks.
 - ◆ **Authored context files, custom skills, and runbooks** that increased first-run success-rate on agent-driven tasks and **reduced token usage by an estimated 25%**.
 - ◆ **Integrated MCP servers and reusable shared contexts** to give agents direct, verified access to internal tools and data sources, **cutting previously-manual handoff steps in Git flow, testing, and task tracking**.
- **Mentored and trained teammates** to close knowledge gaps, enhance code consistency, and accelerate onboarding.

Consultant at *CGI*

June 2019 - September 2020

- **Contracted to PNC Bank**, building and maintaining internal-use Angular/Spring Boot/Maven applications within an agile team.
 - **Obtained an Oracle Java SE 8 Associate certification**.
-

Education

Tech Elevator

December 2018 - April 2019

Technical Diploma, C#.NET Development

Personal Projects

James' Guide - james.guide

A curated resource list offering practical guides and plans for newcomers to woodworking. **Built and maintained entirely without AI tooling as a personal outlet for hands-on React development**. Built with React and hosted on GitHub Pages.

Portfolio Site - courson.dev

A broader overview of my experience, skills, and interests. Built with React and hosted on GitHub Pages.

Skills: *React, React-Admin, Angular, Material UI, AWS CDK, PostgreSQL, Playwright, GitHub Actions, Claude Code, Codex, Agentic Workflows, MCP Servers, Context Files, Token Optimization*
